

Health Quest 2009

The Program

HEALTH QUEST is a health career exploration opportunity that immerses students in a health care setting for six weeks, introducing them to the daily work tasks and responsibilities of a healthcare provider or allied health professional. Hosted by health care facilities, HEALTH QUEST participants work in areas appropriate to and selected by the host facility. Student placements last six weeks with weekly work time compiling 30 hours. The HEALTH QUEST program is funded by the Hudson Mohawk Area Health Education Center (HM AHEC).

Target Audience

High School Students that are at least age 16 at the start of the program

The following are general guidelines. Students should:

- Demonstrate a reliable work history including steady attendance, customer service and the ability to take and follow supervision.
- Please note that the Health Quest program will choose students who are hard workers, reliable and who have an interest in health careers.
- Maintain a professional appearance consistent with health professionals.
- Have an interest in health careers.
- Complete a weekly log and an evaluation form based on their experience at the end of the program.

Next Step

Complete and submit an application and corresponding paperwork. Applications can be found on the homepage of the HM AHEC website–

www.gohealthcareer.org.
